1 RISK FACTORS

*An investment in corporate bonds always involves a certain degree of risk. A number of factors affect and may come to affect the Issuer's or the Group's operations, earnings, financial position, future prospects and result (the "**Group's Financial Position**") and thereby the Issuer's ability to fulfil its payment obligations under the Bonds and the market value of the Bonds. Below is a description of risk factors which the Issuer and the Group considers to be the most relevant to an assessment by a potential investor of whether to invest in the Bonds. However, potential investors should note that the below risk factors are neither exhaustive nor ranked in order of importance and additional risk factors presently not known to the Issuer may affect the Issuer's future ability to fulfil its payment obligations under the Bonds or the market value of the Bonds. The intention is to describe risks that are linked to the Group's operations and the Issuer's ability to fulfil its obligations in accordance with the terms and conditions of the Bonds (the "**Terms and Conditions**") which are set forth under section 10 (Terms and Conditions) in this Prospectus and to describe the risks related to an investment in the Bonds.*

*The Issuer has, through a Dutch indirect wholly-owned subsidiary, acquired all the shares in Synbra Holding B.V. and its direct and indirect subsidiaries (the "**Synbra Group**"). Each reference to the "BEWi Group" is a reference to the Issuer and its direct and indirect subsidiaries before the completion of the Synbra Acquisition.*

*On 8 June 2017, the Issuer issued bonds in the amount of SEK 550,000,000 in accordance with the terms of conditions dated 2 June 2017 of the up to SEK 750,000,000 senior secured floating rate bonds 2017/2020 with ISIN:SE0009857980 (the "**Existing Bonds**").*

Unless otherwise defined or the context requires otherwise, capitalised words and expressions used herein shall have the same meaning given thereto in the Terms and Conditions.

Before making a decision to invest in the Bonds, any potential investor should carefully consider the risk factors outlined below, as well as any other information provided (such as the final Terms and Conditions and any publicly available financial and other information regarding the Issuer and the Group). In addition, a potential investor must, alone or together with its financial and any other adviser it deems appropriate, engage in an analysis of the global market conditions and general information about the markets in which the Group operates from its own perspective. An investor should have adequate knowledge to evaluate the risk factors as well as sufficient financial strength to assume these risks.

1.1 Risks related to the Issuer, the Group and the market

1.1.1 Business risks

The Group develops and manufactures insulation products for the construction industry and adapted packaging solutions and components for industrial customers within, *inter alia*, the manufacturing, food and medical industry, based primarily on the materials expanded polystyrene ("**EPS**") and, to a lesser extent, on expanded polypropylene ("**EPP**"). The Group has several major national and international competitors. Companies in the market compete not only by brand recognition, product innovation, price, quality of goods and performance, service, but also by other competitive factors such as technology, market penetration, proximity to customers and distribution capabilities. There is a risk that the competitive landscape (including the competition from other materials and products), issues in launching new manufacturing processes and outside events (such as disease in the fish industry in Norway or a general downturn in the construction industry (including the new-build market) in one or several of the markets in which the Group operates) could have a negative impact on demand for EPS and any other of the Group's products, and overcapacity in the market to produce EPS may reduce future sales and profitability of the Group, which would have a negative effect on the Group's Financial Position.

1.1.2 *The economy's influence on the demand*

The Group's products are generally sold to the construction industry and industrial customers within, *inter alia*, the manufacturing, food and medical industry. Since the markets for insulation products and packaging products are generally mature in the countries in which the Group operates, there is a significant degree of correlation between economic growth and the demand for these products. As a result, the Group's performance depends to a substantial extent on a number of macroeconomic factors which impact the spending of the Group's customers, and which are outside of the Issuer's control. Factors which impact the spending and level of industrial activity of the Group's customers are, among other things, GDP growth, unemployment rates, consumer and business confidence, social and industrial unrest, the availability and cost of credit, interest rates, taxation, regulatory changes, commodity and utility prices. Each of these factors may have a negative effect on the Group's Financial Position.

1.1.3 *Risks relating to regulations, standards and health and safety regulations*

The Group is affected by various legislative acts, regulations and standards, including, among other things, tax regulations, employment legislation, environmental regulations, product liability regulations, and competition law and regulations. Failure to comply with such regulations or standards may result in loss of business, substantial damages and fees. Each such risk could adversely affect the Group's Financial Position.

Further, any amendments of laws, regulations and standards, leading to stricter requirements or changed conditions regarding product specifications, safety and health or environment, or a development to a stricter implementation and application by the authorities of existing laws and regulations may have several negative implications for the Group. Such changes may require that the Group makes further investments, with increased costs and other commitments for the Group as a result. Such changes may also imply that certain of the Group's products may become obsolete and could also limit or obstruct the Group's business. Each such risk could adversely affect the Group's Financial Position.

1.1.4 *Risks relating to data protection regulations*

In May 2018 the new General Data Protection Regulation ("**GDPR**") issued by the European Union (the "**EU**") has entered into force. The implementation of a new system for personal data processing and actions needed to ensure compliance with the GDPR may involve certain costs for the Group. The implementation of a new system for personal data processing is important as data processing in breach of the GDPR could result in fines amounting to a maximum of EUR 20,000,000 or 4 per cent. of the Group's global turnover. If the Group fails to comply with the new GDPR there is a risk that it will adversely affect the Group's Financial Position.

The legal due diligence of the Synbra Group made in connection with the Synbra Acquisition identified certain issues with compliance under current data protection rules and regulation and consequently the Issuer has not been able to verify or ascertain that the Synbra Group will be fully compliant with GDPR when the regulation enter into force in May 2018. If the Issuer, following the completion of the Synbra Acquisition, is not able to procure that the Synbra Group will be in full compliance with GDPR there is a risk that the Group will be subject to the fines described above which risk adversely affect the Group's Financial Position.

1.1.5 *Fluctuations in cost and availability and quality of raw materials*

The largest component of the Group's cost of sales is raw material costs, mainly due to the purchase of styrene (the raw material used to produce EPS). During the financial year that ended 31 December 2017, the BEWi Group did spend SEK 1,110 million on raw materials. The Group purchases styrene on the international market through a combination of contract and spot prices. The Group's raw material costs are subject to variations in supply and demand, and to some extent on the price of oil (in a long term scenario the price for styrene

is linked to the oil price) and tend to be volatile which results in price fluctuations. Due to the variety of contractual arrangements with customers, there is a risk that the Group in the future will not be able to fully or partially recover raw material prices on a timely basis or at all, especially if economic conditions weaken and/or competition intensifies. As a result, margins may be squeezed for a period of time until price increases are achieved to recover input cost increases. Any inability to recover input cost increases for raw materials could adversely affect the Group's Financial Position. In addition, quality issues in the raw material the Group purchases could induce costs and adversely affect the quality of the products produced by the Group. Each such risk could adversely affect the Group's Financial Position.

1.1.6 *Rising cost of energy or unavailability of energy*

The Group's manufacturing operations utilise electricity, natural gas and petroleum-based fuels which means that the Group is exposed to rising energy costs. The Group's contracts with energy suppliers vary as to price, payment terms, quantities and duration. The Group's energy costs are also affected by various market factors, including the availability of supplies of particular forms of energy, energy prices and local and national regulatory decisions. There is a risk that the Group will not be fully protected against substantial changes in the price or availability of energy sources. Each such risk could adversely affect the Group's Financial Position.

1.1.7 *Dependence on suppliers*

The Group is dependent on a number of suppliers for, among other things, the supply of energy and raw materials needed in its manufacturing operations. Inability to maintain a logistic network for deliveries or other problems in supplies, such as delays, may have adverse consequences for customer relations, etc., resulting in an adverse effect on the Group's Financial Position. The loss of key suppliers could result in costs for the Group and eventually problems in manufacturing. Suppliers could also cause problems for the Group through non-compliance with applicable legislation and regulations or by otherwise acting in an unethical manner. Each such risk could adversely affect the Group's Financial Position.

1.1.8 *Environmental risk*

The Group's operations have an impact on air, water, land and biological processes and the Group is subject to a wide variety of environmental regulations. Compliance with these rules and regulations is an important aspect of the Group's ability to continue its operations. There is a risk that the Group will incur additional environmental costs and liabilities in the future (which also may include paying for environmental restoration). In addition, the Group can neither assure that the businesses it has acquired, prior to such acquisition, always complied with all applicable environmental regulations nor that the operational sites are not polluted. Also, countries could adopt, more stringent environmental laws, regulations and enforcement policies than apply at present. Each such risk could adversely affect the Group's Financial Position.

The legal due diligence of the Synbra Group made in connection with the Synbra Acquisition identified risks that certain sites operated by the Synbra Group could be polluted, that emission and noise levels on some sites potentially exceed permitted levels and could not verify that all environmental permits required to operate the Synbra Group's business have been obtained. There is a risk that non-compliance with current environmental laws and permits could lead to fines and costs which could adversely affect the Group's Financial Position.

1.1.9 *Credit risk*

The Group's current and potential customers and other counterparties may get in a financial situation where they cannot pay the agreed price of goods or services or other amounts owed to the Group as they fall due, or could otherwise abstain from fulfilling their payment obligations. Each such risk could adversely affect the Group's Financial Position.

1.1.10 *Leverage*

As of 28 February 2018 the Group had SEK 1,205 million nominal value of interest-bearing indebtedness outstanding. Such leverage could have consequences on the Group's Financial Position, such as:

- a) limiting the Group's ability to obtain additional financing to fund future operations, capital expenditure, acquisitions and other business opportunities or other corporate requirements;
- b) requiring the dedication of a portion of the Group's cash flows from operations to the payment of principal of, and interest on, its indebtedness, which means that these cash flows will not be available to fund the Group's operations, capital expenditure or for other corporate purposes;
- c) increasing the Group's vulnerability to a downturn in the business or in economic and industry conditions;
- d) limiting the Group's flexibility in planning for, or reacting to, changes in the business, the competitive environment and the industries in which the Group operates;
- e) restricting the Group from making strategic acquisitions or exploiting business opportunities; and
- f) placing the Group at a competitive disadvantage compared to competitors that have less debt.

Each such risk could adversely affect the Group's Financial Position.

1.1.11 *Liquidity risk*

The Issuer aims to continuously assess and monitor the funds needed for its operations so it would have sufficient cash flow and enough liquidity to finance its operations and possible investments as well as for the payments of its debts as they fall due. However, there is a risk that cash flow fluctuates and the Issuer fails in liquidity management. Each such risk could adversely affect the Group's Financial Position.

1.1.12 *Currency risk*

The Group purchases raw materials from foreign suppliers in different currencies (mainly USD and EUR) and often sells products to customers in other currencies (mainly SEK, EUR, DKK, GBP and NOK). Exchange rate fluctuations could adversely affect the Group's Financial Position.

1.1.13 *Risks related to employees*

The Group must have access to skilled and motivated employees to continue to run its operations successfully and to reach its strategic and operational objectives. The Group's future development is therefore to a large extent dependent on that the Group is successful in attracting, developing and retaining employees with appropriate skills in the future. If this is not possible, it could adversely affect the Group's Financial Position.

The Group is dependent on key persons and its development is to a large extent dependent on the experience, knowledge and commitment of management and other key personnel and the Group could be adversely affected should one or several of such key persons terminate their employment. Such risk could adversely affect the Group's Financial Position.

1.1.14 *Negative publicity*

The Group relies, among other things, on its brand and reputation to maintain and attract new customers and employees. Any negative publicity or announcement relating to the Group may, whether or not it is justifiable, deteriorate the brand value. Further, any negative publicity in respect of any of the Group's products, may affect the demand for the Group's products. Each such risk could adversely affect the Group's Financial Position.

1.1.15 *Risks related to acquisitions*

From time to time, the Group may evaluate potential acquisitions that are in line with the Group's strategic objectives. Such acquisitions have, and may, in the future, result in an obligation to pay additional purchase price to the seller, possibly affecting the Group's Financial Position. Acquisition activities may present certain financial, managerial and operational risks, including setting scope and perform due diligence, diversion of management's attention from existing core business, difficulties when integrating or separating businesses from existing operations and challenges presented by acquisitions which may not achieve sales levels and profitability that justify the investments made. If acquisitions are not successfully integrated or if the due diligence processes are not sufficiently conducted, the Group's Financial Position may be adversely affected. Future acquisitions could also result in the incurrence of debt, contingent liabilities, amortisation costs, impairment of goodwill or restructuring charges. Each such risk could adversely affect the Group's Financial Position.

1.1.16 *Risks related to the acquisition of the Synbra Group*

There are certain risks specifically related to Synbra Acquisition. The BEWi Group may not be able to realise all the potential synergies identified in the Synbra Acquisition, and to the extent such synergies are not realised it may have an adverse effect on the Group's Financial Position. Additionally, no assurance can be given that the BEWi Group will be able to fully integrate the Synbra Group's and the BEWi Group's operations without encountering difficulties, which may include, among other things, the loss of key employees, the disruption of the respective ongoing businesses or possible inconsistencies in standards, procedures and policies which may have an adverse effect on the Group's Financial Position. There is a risk that the integration process will disrupt the businesses and that the expected benefits of the Synbra Acquisition will not be realised which may have an adverse effect on the Group's Financial Position

1.1.17 *Operational risks*

The Group might incur losses within its continuing operations due to insufficient routines, lack of control, abuse or external factors. If the Group's manufacturing facilities or the equipment therein would be damaged, for example as a result of fire, or if there are issues or delays in implementing new machinery or manufacturing methods or if any of the manufacturing facilities would have to close or if the end quality of the products produced deteriorates, the Group may suffer losses and delays in delivery. Each such risk could adversely affect the Group's Financial Position.

1.1.18 *Intellectual property rights*

Through the legal due diligence investigations conducted in respect of the Synbra Group in connection with the Synbra Acquisition, it was identified that there is a risk that certain of the Synbra Group's patents and trademarks have not been registered and that there is a risk that certain of the Synbra Group's employment agreements do not transfer intellectual property rights to the Synbra Group. If the Group's protection of its trademarks and patents is not sufficient or if the Group does infringe third party intellectual property rights, this may result in an adverse effect on the Group's Financial Position.

1.1.19 *Disputes*

It cannot be ruled out that the Group will become involved in disputes in the future. The results of any pending or future investigation, proceeding, litigation or arbitration brought by customers or other counterparties, regulatory authorities or governments can, if an unfavourable decision were to be received by the Group, consist of significant fines, damages and/or negative publicity which could adversely affect the Group's Financial Position.

1.1.20 *Insurance risks*

The Group is exposed to various types of risks, such as product liability, property damage, third party liability and business interruption, including events caused by natural disasters and other events outside the Group's control. The Group may in such case be required to pay for losses, damages and liabilities, which could adversely affect the Group's Financial Position. Even if the insurance coverage would be adequate to cover direct losses, the Group may not be able to take remedial actions or other appropriate measures. Furthermore, the Group's claim records may affect the premiums which insurance companies may charge in the future. In addition, there is a risk that the Group's current insurance coverage will be cancelled or cease to be available on reasonable economic terms in the future. Each such risk could adversely affect the Group's Financial Position.

1.1.21 *Corporate governance*

The Group relies primarily on its employees to carry out the operations of the Group in accordance with their respective internal corporate policies for governance and compliance. There is a risk that the Group's employees violate internal policies, which may expose the Group to risks such as being in breach of agreements, entering into contradictory agreements, violating applicable laws and regulations etc. Each such risk could adversely affect the Group's Financial Position.

1.1.22 *Taxes, charges and accounting*

The Group conducts its business in accordance with its interpretation of applicable tax and accounting regulations, including applicable tax rates, accounting treatment of intangible assets and inventory valuation and applicable requirements and precedents. There is a risk that the Group's or its advisors' interpretation and application of laws, accounting rules, provisions and judicial practice has been, or will continue to be, incorrect or that such laws, rules provisions and practice will be changed, potentially with retroactive effect. If such an event should occur, or if the applicable tax rate would change, the Group's tax liabilities may increase and/or lead to sanctions by the tax authorities, and assets may have to be revalued. Each such risk could adversely affect the Group's Financial Position.

1.1.23 *Risks relating to IT infrastructure*

The Group depends on information technology to manage critical business processes, including administrative and financial functions. The Group outsources its IT systems. Any downtime of network servers, attacks by IT-viruses, other disruptions or failure of information technology systems are possible and could have an adverse effect on the Group's Financial Position. Further, insufficient IT strategies and documentation of IT systems and strategies may result in failure of the Group's information technology systems which could cause transaction errors and disruption to the Group's business. Each such risk could adversely affect the Group's Financial Position.

1.1.24 *Ability to service debt*

The Group's ability to service its long- and short term debt will depend upon, among other things, the Group's Financial Position, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors which are outside the Group's control. If the Group's operating income is not sufficient to service its current or future indebtedness, the Group may be forced to take actions such as reducing or delaying its business activities, acquisitions, investments or capital expenditures, selling assets, restructuring or refinancing its debt or seeking additional equity. There is a risk that the Group may not be able to affect any of these remedies on satisfactory terms, or at all. Each such risk could adversely affect the Group's Financial Position.

1.1.25 *Equity*

Net losses may impact the Group's solidity which could affect the Group's reputation among suppliers as well as the Group's ability to raise financing and make new investments. Each such risk could adversely affect the Group's Financial Position.

1.1.26 *Competitive landscape*

The Group has a number of competitors across different product categories, segments and geographic markets. It is possible that these competitors will grow, organically or through consolidation, to be stronger in the future. The Group may not be able to compete successfully against current as well as future competitors. Each such risk could adversely affect the Group's Financial Position.

1.1.27 *The Issuer is dependent on its subsidiaries*

The Issuer is a holding company and the Group's operations are mainly run through its subsidiaries. The Issuer is therefore dependent on its subsidiaries to fulfil its payment obligations under the Bonds. The Group intends to provide the Issuer with liquidity by way of intra-group loans, dividends or other transfers of value in order for the Issuer to fulfil its payment obligations under the Bonds. However, if the subsidiaries do not provide liquidity, or due to other circumstances, conditions, laws or regulations are prevented from providing liquidity to the Issuer, there is a risk that the Issuer will not be able to fulfil its payment obligations under the Bonds.

1.2 Risks related to the Synbra Acquisition

1.2.1 *Risks related to change of control provisions*

The Synbra Acquisition constitute a change of control under certain agreements entered into by the Synbra Group, including agreements with customers and suppliers. Following completion of the Synbra Acquisition, which occurred on 14 May 2018 these counterparties will be entitled to terminate such agreements. Some of these counterparties may exercise their termination rights without advance notice and without incurring penalties, which could adversely affect the Group's Financial Position.

1.2.2 *Unknown liabilities and insufficient indemnities*

There is a risk that the Synbra Group have liabilities that have not been discovered under the due diligence investigations in connection with the Synbra Acquisition. In addition, the extent of liabilities discovered in connection with the due diligence investigations risk being greater than expected. Any such unknown or previously underestimated liabilities, individually or in the aggregate, could adversely affect the Group's Financial Position.

In connection with the Synbra Acquisition, the sellers have given customary representations, warranties and indemnities which have been underwritten by AIG under a W&I policy. Nonetheless, there is a risk that third parties seek to hold the Group responsible for any of the liabilities the sellers have agreed to retain, and there is a risk that the Group will not be able to enforce any claims against the sellers relating to breaches of such representations and warranties. In addition, the sellers have agreed to indemnify the Group for certain matters, subject to certain limitations and caps. The indemnification may not be sufficient to protect the Group against the full amount of such liabilities. There can further be no assurance, that a release of amounts placed into escrow to support indemnities can be accomplished swiftly and will not entail a legal dispute, or that the Group will not face administrative or other sanctions for which the Group is not entitled to indemnity coverage. In addition, even if the Group ultimately succeed in recovering from the indemnifying parties any amounts for which the Group are held liable, the Group may be temporarily required to bear such losses themselves, which could adversely affect the Group's Financial Position.

Moreover, if the sellers become insolvent or files for bankruptcy, the Group's ability to recover any losses suffered as a result of the seller's breach may be limited by the liquidity of

the counterparty or the applicable laws governing the bankruptcy proceedings. In the event of such breach, there is a risk that the Group incur losses, which could adversely affect the Group's Financial Position.

1.3 Risks related to the Bonds

1.3.1 *Credit risk*

Investors in the Bonds carry a credit risk relating to the Issuer and the Group. Investors' ability to receive payment under the Terms and Conditions is therefore dependent on the Group's Financial Position. If the Group's Financial Position deteriorates it is likely that the credit risk associated with the Bonds will increase since the risk that the Issuer cannot fulfil its payment obligations under the Bonds increases. The Group's Financial Position is affected by numerous risk factors, some of which have been outlined above. An increased credit risk could result in the market pricing the Bonds with a higher risk premium, which would adversely affect the market value of the Bonds.

1.3.2 *Refinancing risk*

The Issuer may be required to refinance certain or all of its outstanding debt, including the Bonds. The Issuer's ability to successfully refinance its debts is dependent on the conditions of the debt capital markets and the Group's Financial Position at such time. The Issuer's access to financing sources may not be available on favourable terms, or at all. The Issuer's inability to refinance its debt obligations on favourable terms, or at all, could have an adverse effect on the Issuer's ability to fulfil its payment obligations under the Bonds and the Group's Financial Position.

1.3.3 *Interest rate risk*

The market value of the Bonds is dependent on several factors, one of the most significant over time is the level of the general market interest rates. The Bonds have a floating rate structure based on 3 months EURIBOR plus the margin, and the interest rate of the Bonds will be determined two business days prior to the first day of each interest period. Therefore, the interest rate is to a certain extent adjusted for changes in the level of the general market interest rate. An increase of the general market interest rate level could adversely affect the market value of the Bonds. The general market interest rate level is to a high degree affected by the European and the international financial development and is outside the Issuer's control.

1.3.4 *Secured obligations*

The Bonds constitute direct, unconditional, secured and unsubordinated obligations (other than in respect of enforcement of Transaction Security) of the Issuer. This means that in the event of bankruptcy, re-organisation or winding-up of the Issuer, the Bondholders normally receive payment after any priority creditors have been fully paid to the extent that the Bondholders' claim is not secured by the Transaction Security.

1.3.5 *Risks related to Transaction Security*

The Issuer's obligations under the Senior Finance Documents will be secured by the Transaction Security. The Bondholders will share the security interest under the Transaction Security with other Secured Parties on the basis and subject to the provisions of the Intercreditor Agreement and the Bondholders will, on a *pari passu* basis with the Existing Bonds, receive proceeds from an enforcement of the Transaction Security only after the Financial Indebtedness owed under the Super Senior RCF and the Super Senior Hedges have been repaid in full.

If the outstanding obligations of the Group towards the Super Senior RCF providers and the Super Senior Hedge providers increase or the Issuer issues additional Bonds, the security position of the current Bondholders will be impaired. Furthermore, the value of the assets

covered by Transaction Security may not at all times cover the outstanding claims of the Bondholders.

The relationship between the Secured Parties and Nordic Trustee & Agency AB (publ), acting as Security Agent under the Senior Finance Documents and as Agent for the Bondholders pursuant to the Terms and Condition will be governed by the Intercreditor Agreement. There is no guarantee that the Security Agent will act in a manner or give instructions preferable to the Bondholders.

The Bondholders and the other Secured Parties will be represented by the Security Agent, in all matters relating to the Transaction Security. There is a risk that the Security Agent, or anyone appointed by it, does not properly fulfil its obligations in terms of perfecting, maintaining, enforcing or taking other necessary actions in relation to the Transaction Security. The Transaction Security is subject to certain hardening periods (*återvinningsfrister*) during which times the Secured Parties do not fully, or at all, benefit from the Transaction Security.

If a subsidiary which shares are pledged in favour of the Secured Parties is subject to any winding-up, liquidation, or other insolvency proceedings, the shares that are subject to such Transaction Security may have limited value because all of the subsidiary's obligations must first be satisfied, potentially leaving little or no remaining assets in the subsidiary for the Secured Parties. As a result, the Secured Parties may not recover full or any value in the case of an enforcement sale of such pledged shares. In addition, the value of the shares subject to the pledge may decline over time.

The value of any intra-group loans that are subject to Transaction Security is largely dependent on the relevant debtor's ability to repay such intra-group loan. Should the relevant debtor be unable to repay upon an enforcement of the pledge, the Secured Parties may not recover the full value of the security granted over such intra-group loans.

The Transaction Security granted over business mortgage certificates can only be enforced through the enforcement authority or, in case of bankruptcy, by the bankruptcy administrator. As a result, an enforcement process may take a substantial amount of time, which may entail that the value of the assets subject to the security may decline during this period.

If the proceeds of an enforcement are not sufficient to repay all amounts due under or in respect of the Bonds, then the bondholders will only have an unsecured claim against the remaining assets (if any) of the Issuer for the amounts which remain outstanding under or in respect of the Bonds.

1.3.6 *Risks related to the tenure of the Bonds*

The Bonds, the Existing Bonds and the credit facility under the Super Senior RCF do not have the same tenure and the Issuer may amortise and make prepayments under the credit facility under the Super Senior RCF without having to make corresponding amortisations or prepayments under the Bonds. The shorter tenor of the Existing Bonds and the credit facility under the Super Senior RCF could have a negative impact on the interests of the Bondholders.

1.3.7 *Security granted to secure the Bonds may be unenforceable or enforcement of the Transaction Security may be delayed*

The enforceability of the Transaction Security may be subject to uncertainty. The Transaction Security may be unenforceable if (or to the extent), the granting of the security would contravene mandatory applicable legislation including financial assistance or corporate benefit restrictions (guarantees and security granted in favour of third parties that have an adverse effect on the Issuer's balance sheet and do not have sufficient corporate benefit may be limited in value by operation of law). Furthermore, the Transaction Security may be limited in value, *inter alia*, to avoid a breach of mandatory applicable legislation (including corporate benefit and financial assistance restrictions).

The Transaction Security may not be perfected, *inter alia*, if the Security Agent or the relevant security provider is not able to or does not take the actions necessary to perfect or maintain the perfection of any such security. Such failure may result in the invalidity of the relevant Transaction Security or adversely affect the priority of such security interest, including a bankruptcy receiver in bankruptcy and other creditors who claim a security interest in the assets subject to the Transaction Security.

If the Issuer is unable to make payments under the Bonds and a court would render a judgment that the Transaction Security granted in respect of the Bonds was unenforceable, the Bondholders may find it difficult or impossible to recover the amounts owed to them under the Bonds. Therefore, there is a risk that the Transaction Security granted in respect of the Bonds might be void or ineffective. In addition, any enforcement may be delayed due to any inability to sell the assets subject to the Transaction Security.

1.3.8 *Risks relating to release of Transaction Security*

The Security Agent may at any time (without the prior consent of the Bondholders), acting on instructions of the Secured Creditors, release the Transaction Security and guarantees in accordance with the terms of the Intercreditor Agreement. Although the Transaction Security shall be released *pro rata* between the Secured Creditors and continue to rank *pari passu* between the Secured Creditors, such release will impair the security interest and the secured position of the Bondholders, especially since the enforcement proceeds from the remaining Transaction Security are not distributed equally between the Secured Creditors.

1.3.9 *Risks relating to the Security Agent acting on behalf of Bondholders*

Subject to the terms of the Intercreditor Agreement, the Security Agent is entitled to enter into agreements with the Issuer or a third party or take any other actions necessary for the purpose of maintaining, releasing or enforcing the Transaction Security or for the purpose of settling, among others, the Secured Parties and the Bondholders rights to the Transaction Security. Although there is a limitation set out in the Intercreditor Agreement that such actions shall not be taken if the Security Agent deems the action to be detrimental to the interests of the Bondholders, it cannot be guaranteed that actions will not be taken that may be considered to be detrimental in the view of some or all of the Bondholders. The aforementioned limitation does not apply to release provisions set out in the Terms and Conditions, the Intercreditor Agreement or the documents which governs the Transaction Security. Certain of the subsidiaries of the Issuer have granted guarantees and security in relation to the Issuer's and other group companies' obligations under the Finance Documents (as defined in the Intercreditor Agreement). The Secured Parties' right to payment under those guarantees and security is subject to, among other things, the availability of funds, legal restrictions and the terms of each guarantor's indebtedness.

1.3.10 *Risks related to the Intercreditor Agreement*

The Intercreditor Agreement contains provisions for the sharing of the Transaction Security between the Secured Parties. If a Secured Party receives enforcement proceeds or other payments in excess of what is stipulated by the Intercreditor Agreement, such Secured Party is obligated to share such proceeds or payments. However, if such Secured Party goes into insolvency prior to making such sharing payment, it is not certain that a bankruptcy administrator of such Secured Party would respect the Intercreditor Agreement which potentially could adversely affect the other Secured Parties.

Further, the Intercreditor Agreement contains certain voting provisions in respect of the relationship between, among others, the existing bondholders under the Existing Bond and the bondholders under the Bonds. These provisions stipulates that for as long as the indebtedness incurred under the Bonds is larger than the Existing Bonds, the instructing party in connection with enforcement under the Intercreditor Agreement is the representative of those of the Bondholders and the Existing Bondholders, voting for the relevant decision, whose Senior Debt at that time aggregate to more than 50 per cent. of the total Senior Debt at that time, calculated based on the bondholders under the Bond and the existing bondholders under any Existing Bonds and any Bonds voting as one creditor class with a representative of the majority of such creditor class being the senior representative. Further, if and for as long as the indebtedness incurred under the Bonds is larger than the Existing Bonds, the Agent and any representative of the bondholders under the Bonds shall conduct the respective voting procedures under the respective debt instruments and any representative of the bondholders under the Bonds shall share its result from a voting procedure under the Terms and Conditions with the Agent under the Existing Bonds. The Agent shall, based on such results, determine the decision of the bondholders under the Bonds and the Existing Bondholders representing a majority of the Senior Debt under any Bonds and any Existing Bonds, based on the Bondholders and the Existing Bondholders under any Bonds and any Existing Bonds voting as one creditor class (the “**Collective Majority Senior Creditors**”) and act as the instructing party in connection with enforcement under the Intercreditor Agreement if not replaced with another representative appointed by the Collective Majority Senior Creditors.

The result of the above mentioned voting provisions is that, if and for as long as the financial indebtedness incurred under the Existing Bonds is larger than the financial indebtedness incurred under the Bonds, the Existing Bondholders will have the instructing right and there is a risk that the result of a voting under such circumstances will not be in the interest of the Bondholders under the Bonds.

1.3.11 *The Security Agent's and other charges may rank ahead of Secured Parties when receiving enforcement proceeds.*

The proceeds from an enforcement of the Transaction Security will be applied in accordance with the terms of the Intercreditor Agreement pursuant to which certain fees to, *inter alios*, the Security Agent as well as certain costs and indemnifications will be paid by the Security Agent before applying proceeds to the Bondholders and the other Secured Parties.

The proceeds of an enforcement of Transaction Security will be applied in accordance with the terms of the Intercreditor Agreement pursuant to which the Super Senior Creditors will be paid by the Security Agent before applying proceeds to the Bondholders.

If the proceeds of an enforcement sale are not sufficient to repay all amounts due on or in respect of the Bonds, the Bondholders will only have an unsecured claim against the remaining assets (if any) in the Issuer for the amounts which remain outstanding on or in respect of the Bonds.

1.3.12 *Insolvency of subsidiaries and structural subordination*

In the event of insolvency, liquidation or a similar event relating to one of the Issuer's subsidiaries, all creditors of such subsidiary would be entitled to payment in full out of the assets of such subsidiary before the Issuer, as a shareholder, would be entitled to any payments. Defaults by, or the insolvency of, subsidiaries of the Issuer may result in the obligation of the Issuer to make payments under financial or performance guarantees in respect of such companies' obligations or the occurrence of cross defaults on certain borrowings of the Group. There is a risk that the Issuer and its assets would not be protected from actions by the creditors of a subsidiary, whether under bankruptcy law, by contract or otherwise. Further, the Group operates in various jurisdictions and in the event of bankruptcy, insolvency, liquidation, dissolution, reorganisation or similar proceedings involving the Issuer or any of its subsidiaries, bankruptcy laws other than those of Sweden

could apply. The outcome of insolvency proceedings in foreign jurisdictions could have an adverse effect on the potential recovery in such proceedings.

1.3.13 *The market value of the Bonds may be volatile*

The market value of the Bonds could be subject to significant fluctuations in response to actual or anticipated variations in the Group's Financial Position and those of its competitors, adverse business developments, changes to the regulatory environment in which the Group operates, changes in financial estimates by securities analysts and the actual or expected sale of a large number of Bonds, as well as other factors. In addition, in recent years the global financial markets have experienced significant price and volume fluctuations, which, if repeated in the future, could adversely affect the market value of the Bonds without regard to the Group's Financial Position.

1.3.14 *Security over assets granted to third parties*

The Issuer and its subsidiaries may, subject to certain limitations, from time to time incur additional financial indebtedness and provide additional security for such indebtedness. In the event of bankruptcy, re-organisation or winding-up of the Issuer, the Bondholders will be subordinated in right of payment out of the assets being subject to such security. For information on similar events of insolvency of a subsidiary, please refer to the section 1.3.12 (*Insolvency of subsidiaries and structural subordination*).

1.3.15 *The Agent's actions and financial standing*

By subscribing for, or accepting the assignment of, any Bond, each Bondholder will accept the appointment of the Agent (being on the issue date Nordic Trustee & Agency AB (publ)) to act on its behalf and to perform administrative functions relating to the Bonds. The Agent shall have, among other things, the right to represent the Bondholders in all court and administrative proceedings in respect of the Bonds. However, the rights, duties and obligations of the Agent as the representative of the Bondholders will be subject to the provisions of the Terms and Conditions and the agency agreement, and there is no specific legislation or market practice in Sweden (under which laws the Terms and Conditions are governed) which would govern the Agent's performance of its duties and obligations relating to the Bonds. A failure by the Agent to perform its duties and obligations properly, or at all, may adversely affect the enforcement of the rights of the Bondholders. Under the Terms and Conditions, the funds collected by the Agent as the representative of the Bondholders must be held separately from the funds of the Agent and be treated as escrow funds (*redovisningsmedel*) to ensure that in the event of the Agent's bankruptcy, such funds can be separated for the benefit of the Bondholders. In the event the Agent would fail to separate the funds in an appropriate manner, the funds could be included in the Agent's bankruptcy estate.

The Agent may be replaced by a successor Agent in accordance with the Terms and Conditions. Generally, the successor Agent has the same rights and obligations as the retired Agent. It may be difficult to find a successor Agent on commercially acceptable terms or at all. Further, the risk exists that the successor Agent would breach its obligations under the above mentioned documents or that insolvency proceedings would be initiated against it.

Materialisation of any of the above risks may have an adverse effect on the enforcement of the rights of the Bondholders and the possibility of the Bondholders to receive payments under the Bonds.

1.3.16 *Currency risks*

The Bonds will be denominated and payable in EUR. If Bondholders in the Bonds measure their investment return by reference to a currency other than EUR, an investment in the Bonds will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of the EUR relative to the currency by reference to which Bondholders measure the return on their investments. This could cause a decrease in the

effective yield of the Bonds below their stated coupon rates and could result in a loss to Bondholders when the return on the Bonds is translated into the currency by reference to which the Bondholders measure the return on their investments. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Bonds. As a result, there is a risk that Bondholders may receive less interest or principal than expected, or no interest or principal at all.

1.3.17 *Majority owner*

The Issuer has three major shareholders and, following any potential change of control in the Issuer, the Issuer may be controlled by a majority shareholder whose interest may conflict with those of the Bondholders, particularly if the Group encounters difficulties or is unable to pay its debts as they fall due. A majority shareholder has legal power to control a large amount of the matters to be decided by vote at a shareholders' meeting. For example, a majority shareholder will have the ability to elect the board of directors. Furthermore, a majority shareholder may also have an interest in pursuing acquisitions, disposals, financings or other transactions that, in its judgment, could enhance its equity investments, although such transactions might involve risks to the bondholders. There is nothing that prevents a shareholder or any of its affiliates from acquiring businesses that directly compete with the Group. If such an event were to arise, it could have a material negative impact on the Group's Financial Position. According to the Terms and Conditions, if a Change of Control Event occurs, the Bondholders have a right to require prepayment of the Bonds (put option). However, there is a risk that the Issuer does not have enough liquidity to repurchase the Bonds if the bondholders use its right of prepayment, see further under section 1.3.18 (*Put options*) below.

1.3.18 *Put options*

According to the Terms and Conditions, the Bonds are subject to prepayment at the option of each Bondholder (put options) upon the occurrence of a Change of Control Event, Listing Failure or Delisting. There is, however, a risk that the Issuer will not have sufficient funds at the time of such prepayment to make the required prepayment of the Bonds which could adversely affect the Issuer, e.g. by causing insolvency or an event of default under the Terms and Conditions, and thus adversely affect all Bondholders and not only those that choose to exercise the option.

1.3.19 *Bondholders' meeting*

The Terms and Conditions include certain provisions regarding Bondholders' meetings, which may be held in order to resolve on matters relating to the Bondholders' interests. Such provisions allow for designated majorities to bind all Bondholders, including Bondholders who have not participated in or voted at the actual meeting or who have voted differently than the required majority, to decisions that have been taken at a duly convened and conducted Bondholders' meeting. Consequently, there is a risk that the actions of the majority in such matters could impact a Bondholder's right in a manner that would be undesirable for some of the Bondholders.

1.3.20 *Bondholders' representation*

In accordance with the Terms and Conditions, the Agent represents all Bondholders in all matters relating to the Bonds. However, this does not rule out the possibility that the Bondholders, in certain situations, could bring their own action against the Issuer, which could adversely impact an acceleration of the Bonds or other action against the Issuer. To enable the Agent to represent the Bondholders in court, the Bondholders may have to submit a written power of attorney for legal proceedings. The failure of all Bondholders to submit such a power of attorney could adversely impact the enforcement of the Bonds and the possibility for the Bondholders to exercise their rights under the Bonds. Under the Terms and Conditions the Agent has the right in some cases to make decisions and take measures that

bind all Bondholders. Consequently, the actions of the Agent in such matters could impact a Bondholder's rights under the Terms and Conditions in a manner that would be undesirable for some of the Bondholders.

1.3.21 *Liquidity risk*

The Issuer intends to list the Initial Bonds within 30 days after the First Issue Date on Nasdaq Stockholm or any other regulated market (as defined in Directive 2004/39/EC on markets in financial instruments) in Sweden and intends to list any Subsequent Bonds within 30 days from the relevant Issue Date on Nasdaq Stockholm or any other regulated market (as defined in Directive 2004/39/EC on markets in financial instruments) in Sweden after the prospectus for the Bonds has been approved by the Swedish Financial Supervisory Authority (*Finansinspektionen*). However, there is a risk that the Bonds will not be admitted to trading within the aforementioned time frame, or at all and it cannot be ascertained that an active market for the Bonds will evolve. If the Issuer fails to procure listing of the Bonds in accordance with applicable laws regulating investment savings accounts (*ISK or IS-konto*), investors holding Bonds on such investment savings account will no longer be able to hold the Bonds on such account, thus affecting such Investor's tax situation. For further information regarding the consequences of a listing failure, see section 1.3.18 (*Put options*) above. A functioning commercial secondary market exists for bonds in general in Sweden. However, there might not be an existing trading market for more complex bonds when such bonds are registered and a secondary market may not even develop. This can result in Bondholders not being able to sell their Bonds when they wish to or at a yield comparable to similar investments having an existing and functioning secondary market. A lack of liquidity in the market could have an adverse effect on the market value of the Bonds.

1.3.22 *Clearing and settlement in Euroclear Sweden AB's account-based system*

The Bonds will be affiliated to Euroclear Sweden AB's ("**Euroclear**") account-based system. Consequently, no physical bonds have been or will be issued. Clearing and settlement relating to the Bonds, as well as payment of interest and redemption of principal amounts, will be performed within Euroclear's account-based system. The Bondholders are therefore dependent on the functionality of Euroclear's account-based system and any problems thereunder could have an adverse effect on the payment of interest and repayment of principal under the Bonds.

1.3.23 *Changes in legislation*

The Terms and Conditions are based on Swedish legislation applicable at the date thereof. There is a risk that future changes in legislation, case law or administrative practice may affect the Group. Changes in legislation, case law or administrative practice could adversely affect the market value of the Bonds.

1.3.24 *Prepayment risk*

The Issuer has, subject to certain conditions, a right under the Terms and Conditions to redeem all outstanding Bonds in advance. If so, a certain additional sum shall be paid. There is a risk that the market value of the Bonds at the time of redemption is higher than the price that the Issuer may be entitled to redeem the Bonds for.

1.3.25 *Restrictions on the transferability of the Bonds*

The Bonds have not been and will not be registered under the U.S. Securities Act or any U.S. state securities laws. Subject to certain exemptions, a Bondholder may not offer or sell the Bonds in the United States. The Issuer has not undertaken to register the Bonds under the U.S. Securities Act or any U.S. state securities laws or to affect any exchange offer for the Bonds in the future. Furthermore, the Issuer has no obligation to register the Bonds under any jurisdiction's securities laws other than Sweden. Each Bondholder should observe and obey the transfer restrictions that apply to the Bonds. It is the Bondholder's obligation to ensure, at its own cost and expense, that its offers and sales of Bonds comply with all

applicable securities laws. Due to these restrictions, there is a risk that a Bondholder cannot sell its Bonds as desired.

1.3.26 *Conflict of interests*

The Sole Bookrunner may in the future engage in investment banking and/or commercial banking or other services for the Group in the ordinary course of business. Accordingly, conflicts of interest may exist or may arise as a result of the Sole Bookrunner having previously engaged, or will in the future engage, in transactions with other parties, having multiple roles or carrying out other transactions for third parties with conflicting interests.

2 **ASSURANCE REGARDING THE PROSPECTUS**

11. Priority of the Super Senior RCF, the Existing Bonds and the Bonds

The relationship between the Bondholders, the Existing Bondholders and the creditors in respect of the Super Senior RCF and the Super Senior Hedges is governed by the Intercreditor Agreement, which, among other things, includes the following principles:

(a) *Payment block*

Following a Payment Block Event and for as long as it is continuing, no payments may be made by the Issuer to the Bondholders under or in relation to the Bonds (notwithstanding any other provisions to the contrary herein). For the avoidance of doubt, the failure by the Issuer to timely make any payments due under the Bonds shall constitute an Event of Default and the unpaid amount shall carry default interest pursuant to Clause 8(d).

(b) *Priority of the Super Senior RCF in case of insolvency*

In the case of insolvency of the Issuer, the Financial Indebtedness incurred by the Issuer under the Bonds will be subordinated to the Financial Indebtedness owed by the Issuer under the Super Senior RCF and the Super Senior Hedges.

(c) *Priority of the Super Senior RCF with respect to Shared Security*

In case of enforcement of the Shared Security, any enforcement proceeds will first be applied towards repayment of the Financial Indebtedness incurred by the Issuer under the Super Senior RCF and the Super Senior Hedges and secondly towards redemption of the Bonds.

(d) *Pari passu ranking of the Existing Bonds and the Bonds*

In case of insolvency of the Issuer, the Financial Indebtedness incurred by the Issuer under the Bonds will be ranked *pari passu* with the Existing Bonds in accordance with the terms of the Intercreditor Agreement.

(e) *Consultation period before enforcement of Shared Security*

If Conflicting Enforcement Instructions (as defined in the Intercreditor Agreement) are provided by the Agent or the agent under the Super Senior RCF, the Agent and the agent under the Super Senior RCF must enter into consultations for a period of maximum 30 calendar days as set out in the Intercreditor Agreement (unless such consultation is waived by the Agent and the facility agent under the Super Senior RCF).

12. Voting provisions for Senior Creditors

The Intercreditor Agreement contain voting provisions for the Senior Creditors and appointment of representative for the Senior Creditors to be applied when the New Debt is larger than the debt outstanding under the Existing Bonds. For as long as the indebtedness incurred under Bonds is larger than the Existing Bonds, the instructing party in connection with enforcement under the Intercreditor Agreement is the representative of those of the Bondholders and the Existing Bondholders, voting for the relevant decision, whose Senior Debt at that time aggregate more than 50 per cent. of the total Senior Debt at that time, calculated based on the Bondholders and the Existing Bondholders under any Existing Bonds and any Bonds voting as one creditor class with a representative of the majority of such creditor class being the senior representative. Further, if and for as long as the indebtedness incurred under the Bonds is larger than

the Existing Bonds, the Agent and any representative of the Bondholders shall conduct the respective voting procedures under the respective debt instruments and any representative of the Bondholders shall share its result from a voting procedure under the Terms and Conditions with the Agent under the Existing Bonds. The Agent shall, based on such results, determine the decision of the Bondholders and the Existing Bondholders representing a majority of the Senior Debt under any Bonds and any Existing Bonds, based on the Bondholders and the Existing Bondholders under any Bonds and any Existing Bonds voting as one creditor class (the "**Collective Majority Senior Creditors**") and act as the instructing party in connection with enforcement under the Intercreditor Agreement if not replaced with another representative appointed by the Collective Majority Senior Creditors.

- (n) If a decision shall be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies, irrespective of whether such person is directly registered as owner of such Bonds. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a Bond is owned by a Group Company.
- (o) Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the Bondholders and published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

19. Bondholders' Meeting

- (e) Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in person.

20. Written Procedure

- (a) The Agent shall instigate a Written Procedure no later than five Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such person who is registered as a Bondholder on the Business Day prior to the date on which the communication is sent.
- (b) Should the Issuer want to replace the Agent, it may send a communication in accordance with Clause 20(a) to each Bondholder with a copy to the Agent.

If the voting shall be made electronically, instructions for such voting shall be included in the communication.
- (d) When the requisite majority consents of the total Adjusted Nominal Amount pursuant to Clauses 18(e) and 18(f) have been received in a Written Procedure,

the relevant decision shall be deemed to be adopted pursuant to Clause 18(e) or 18(f), as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

21. Amendments and Waivers

- (a) The Issuer and the Agent (acting on behalf of the Bondholders) may (subject to the terms of the Intercreditor Agreement) agree to amend the Finance Documents or waive any provision in a Finance Document, provided that:
 - (i) in the opinion of the Agent and/or as confirmed by a reputable external expert engaged by the Agent (if the Agent reasonably considers it necessary to engage such expert), such amendment or waiver is not detrimental to the interest of the Bondholders as a group;
 - (ii) such amendment or waiver is made solely for the purpose of rectifying obvious errors and mistakes;
 - (iii) such amendment or waiver is required by applicable law, a court ruling or a decision by a relevant authority;
 - (iv) such amendment will not negatively affect the Bondholders or the Agent and is necessary for the listing of the Bonds (as described in the definition of "Listing Failure"); or
 - (v) such amendment or waiver has been duly approved by the Bondholders in accordance with Clause 18 (*Decisions by Bondholders*).
- (b) The consent of the Bondholders is not necessary to approve the particular form of any amendment to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
- (c) The Agent shall promptly notify the Bondholders of any amendments or waivers made in accordance with Clause 21(a), setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to the Finance Documents are published on its website in the manner stipulated in Clause 13.3 (*Publication of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority and that any amendments to the Finance Documents are published on its website in the manner stipulated in Clause 13.3 (*Publication of Finance Documents*).
- (d) An amendment to the Finance Documents shall take effect on the date determined by the Bondholders' Meeting, in the Written Procedure or by the Agent, as the case may be.

22. Appointment and Replacement of the Agent

22.1 Appointment of Agent

- (a) By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder including any legal or arbitration proceeding relating to the perfection, preservation, protection or enforcement of the Transaction Security and Guarantees.
- (b) By acquiring Bonds, each subsequent Bondholder confirms the appointment and authorisation for the Agent to act on its behalf, as set forth in Clause 22.1(a).
- (c) Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent) that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Bondholder which does not comply with such request.
- (d) The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- (e) The Agent is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agency Agreement and the Agent's obligations as Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- (f) The Agent may act as agent or trustee for several issues of securities issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

22.2 Duties of the Agent

- (a) The Agent shall represent the Bondholders in accordance with the Finance Documents, including, *inter alia*, holding the Transaction Security and Guarantees pursuant to the Security Documents and Guarantee Agreement on behalf of the Bondholders and, where relevant, enforcing the Transaction Security and/or Guarantees on behalf of the Bondholders. The Agent is not responsible for the content, valid execution, perfection, legal validity or enforceability of the Finance Documents.
- (b) When acting in accordance with the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent shall carry

out its duties under the Finance Documents in a reasonable, proficient and professional manner, with reasonable care and skill.

- (c) The Agent's duties under this Agreement are solely mechanical and administrative in nature and the Agent only acts in accordance with these Terms and Conditions and upon instructions from the Bondholders, unless otherwise set out in these Terms and Conditions. In particular, the Agent is not acting as an advisor (whether legal, financial or otherwise) to the Bondholders or any other person.
- (d) The Agent is not obligated to assess or monitor the financial condition of the Issuer or compliance by the Issuer of the terms of the Finance Documents unless to the extent expressly set out in the Terms and Conditions and the other Finance Documents, or to take any steps to ascertain whether any Event of Default (or any event that may lead to an Event of Default) has occurred. Until it has actual knowledge to the contrary, the Agent is entitled to assume that no Event of Default (or any event that may lead to an Event of Default) has occurred.
- (e) The Agent is entitled to delegate its duties to other professional parties (without having to first obtain any consent from the Issuer or the Bondholders), but the Agent shall remain liable for the actions of such parties under the Finance Documents.
- (f) The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- (g) The Agent is entitled to engage external experts when carrying out its duties under the Finance Documents. The Issuer shall on demand by the Agent pay all costs for external experts engaged after the occurrence of an Event of Default, or for the purpose of investigating or considering (i) an event which the Agent reasonably believes is or may lead to an Event of Default, (ii) a matter relating to the Issuer which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents or (iii) as otherwise agreed between the Issuer and the Agent. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 17 (*Distribution of Proceeds*).
- (h) Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- (i) If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, or the Bondholders (as applicable), the Agent may refrain from acting in

accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.

- (j) Unless it has actual knowledge to the contrary, the Agent may assume that all information provided by or on behalf of the Issuer (including by its advisors) is correct, true and complete in all aspects.
- (k) The Agent shall give a notice to the Bondholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 22.2(i).

22.3 Limited liability for the Agent

- (a) The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect loss.
- (b) The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts addressed to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- (c) The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- (d) The Agent shall have no liability to the Bondholders or the Issuer for damage caused by the Agent when acting in accordance with instructions of the Bondholders given to the Agent in accordance with the Finance Documents.
- (e) Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.
- (f) The Agent is not liable for information provided to the Bondholders by or on behalf of the Issuer or by any other person.

22.4 Replacement of the Agent

- (a) Subject to Clause 22.4(f), the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent

at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.

- (b) Subject to Clause 22.4(f), if the Agent is Insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (c) A Bondholder (or Bondholders) representing at least ten per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice may only be validly given by a person who is a Bondholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.
- (d) If the Bondholders have not appointed a successor Agent within 90 days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Bondholders, the Issuer shall appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (e) The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- (f) The Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent.
- (g) Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- (h) In the event that there is a change of the Agent in accordance with this Clause 22.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agrees otherwise, the new

Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

23. Appointment and Replacement of the Issuing Agent

- (a) The Issuer appoints the Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Bonds.
- (b) The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the old Issuing Agent retires or is dismissed. If the Issuing Agent is Insolvent, the Issuer shall immediately appoint a new Issuing Agent, which shall replace the old Issuing Agent as issuing agent in accordance with these Terms and Conditions.

24. No Direct Actions by Bondholders

- (a) A Bondholder may not take any steps whatsoever against the Issuer or with respect to the Transaction Security or Guarantees to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the liabilities of the Issuer under the Finance Documents.
- (b) Clause 24(a) shall not apply if the Agent has been instructed by the Bondholders in accordance with these Terms and Conditions to take certain actions but is legally unable to take such actions (however, any action taken by a Bondholder must always be permitted under the Intercreditor Agreement)(for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 22.1(c)), within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 22.2(i), such failure must continue for at least 40 Business Days after notice pursuant to Clause 22.2(k) before a Bondholder may take any action referred to in Clause 24(a).
- (c) The provisions of Clause 24(a) shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 9.7 (*Mandatory repurchase due to a Change of Control Event, Listing Failure or Delisting (put option)*) or other payments which are due by the Issuer to some but not all Bondholders.

25. Prescription

- (a) The right to receive repayment of the principal of the Bonds shall be prescribed and become void ten years from the Redemption Date. The right to receive

payment of interest (excluding any capitalised interest) shall be prescribed and become void three years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been prescribed and has become void.

- (b) If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*Sw. preskriptionslag (1981:130)*), a new limitation period of ten years with respect to the right to receive repayment of the principal of the Bonds, and of three years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.
